# MYKE® NATURALLY POWERFUL

### ALL-NATURAL GROWTH ENHANCER

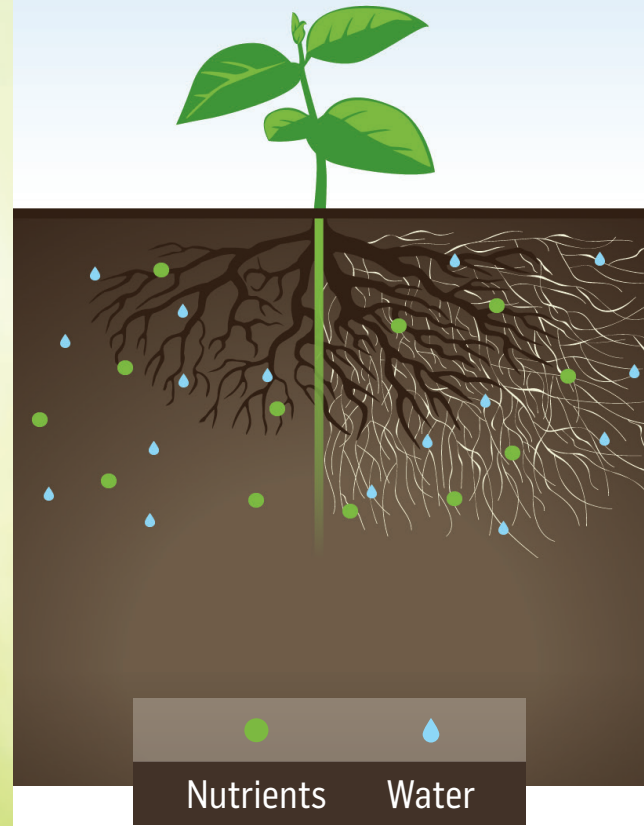

Almost 15 years ago, MYKE® was offering for the first time in the market unique Growth Enhancers for the passionate gardeners. Since then, MYKE® has evolved to today's unique offer so consumers can make the most out of their gardening! All-natural Growth Enhancer, MYKE® creates the ideal environment for healthier and stronger plants. The MYCORRHIZAE™ contained in this product enters in a symbiosis with your plants to deliver superior, richer growing results!

The synergies between the plant and MYCORRHIZAE™ increases nutrient and water availability by forming a secondary root system that can be

80 times the length of the original one. Mycorrhizae once were present in natural soils, unfortunately human activity has reduced their quantity significantly enough that their presence no longer impacts positively the well-being of modern nature. The MYCORRHIZAE™ in MYKE® products are produced through a natural process that requires over 20 years of innovation and trials. Offer plants the most advanced biotechnology and harness the forces of nature for absolute effectiveness while preserving the environment. All MYKE® Growth Enhancers are OMRI-Listed.

# MYCORRHIZAE GROWTH ENHANCERS

- Enhance rapid growth development
- Ensure better yield
- Reduce watering needs

Root without mycorrhizae

Root with mycorrhizae

## MYKE® FLOWER

Designed to intuitively nurture, protect and enhance the health of your flowers while preserving the environment, MYKE® FLOWER delivers the most out of gardening! Find in MYKE® the natural way to grow luxurious, long lasting flowers.

**+ SEAWEED:** A natural source of micronutrients that ensures abundant flowering.

### USE

When planting annuals and perennials in pots, flowerbeds and flower boxes.

Exceptions: Orchids, rhododendrons, carnations, kochias, alyssums, azaleas and lupins cannot be colonized by the fungus contained in MYKE® FLOWER.

### TREATS

0.9 US dry qt (1 L): up to 32 plants

### FORMULATION

- Natural coarse granular carrier (perlite and peat) providing additional porosity to soil
- MYCORRHIZAE TYPE: endomycorrhizae

PRODUCT CODE	SIZE	UNITS PER BOX	PLANTS TREATED
6009211NPBX	0.9 US dry qt	36	32

**+32%** GERBERA GROWTH INCREASE AFTER 2 WEEKS

## MYKE® VEGETABLE & HERB

Achieve superior growth in the most powerful and natural way possible. MYKE® VEGETABLE & HERB is the most advanced and efficient biotechnology available to nourish and grow produce effectively in harmony with the environment.

- + CALCIUM: Better nutritional equilibrium.
- + POTASSIUM: Enhances growth.
- + HUMIC ACIDS: Stimulate beneficial microbial activity.

### USE

When transplanting or sowing indoors or outdoors vegetables, fruits or herbs in pots and beds.

Exceptions: Broccoli, cabbage, beet, spinach and radishes as well as blueberries and cranberries cannot be colonized by the fungus contained in MYKE® VEGETABLE & HERB.

### TREATS

0.9 US dry qt (1 L): up to 32 plants

1.8 oz (180 ml): up to 6 plants

### FORMULATION

- Natural fine granular carrier (vermiculite and peat) allowing for good seed germination.
- MYCORRHIZAE TYPE: endomycorrhizae

MYKE® offers the opportunity to translate a strong market trend into tangible sales. MYKE® VEGETABLE & HERB is offered in an attractive ready to display packaging.

PRODUCT CODE	SIZE	UNITS PER BOX	PLANTS TREATED
